

ENERGIE IM KREISLAUF DER NATUR

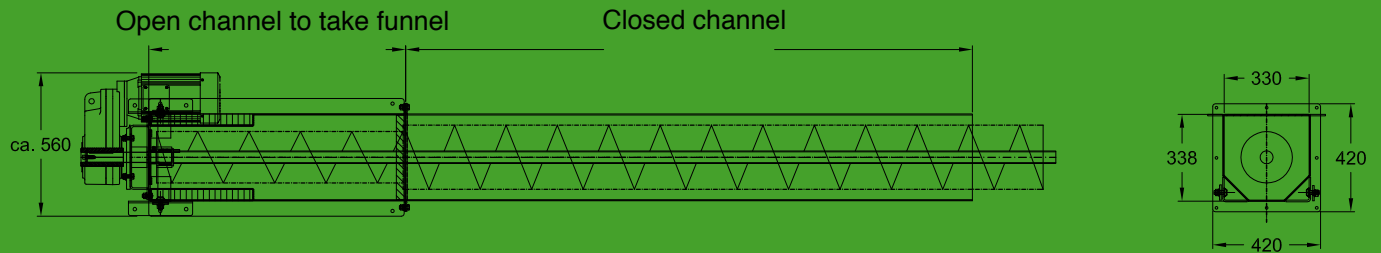

Extremely stable woodchip transport auger for filling hard to access woodchip stores through an existing light duct or a designated filling hatch

Taylor made lengths to suit specific requirements manufactured to order.

ENERGIE IM KREISLAUF DER NATUR

- Integrated geared motor
Output 5,5 kW, 86 rpm.
Motor protection (Thermo sensor in windings)
Emergency turn off switch
- Auger screw welded continuously to solid core drive
- Channels made from 4mm steel
- Specific lengths available in multiples of 100 mm
- Tipping funnel with safety mesh supplied to order or sourced locally
- Throughput: Up to 40 cubic meters per hour
