

ENERGIE IM KREISLAUF DER NATUR

High performance woodchip blower with generous tip-in loading trough

Up to 10 m chip lift

1 m and 2 m fixed length ducting

Ducting diameter 240 mm

90° discharge sprout

Throughput up to 60 m<sup>3</sup>/h

High power 11 kW electric motor

1440 rpm blower fan

- suitable for square or circular bunkers up to 7 m diameter
- Height at back of trough around 0,7 m, allows for filling with standard agricultural tippers or front loaders

# Heizotrans<sup>®</sup>

## Woodchip Blower

- Heavy steel Chassis
- 880 mm fan diameter
- High inertia turbine runner
- Blower blades from Hardox steel
- Electric blower motor  
Output 11 KW at 1440 rpm
- Up to 15 m chip lift possible
- Ducting diameter 240 mm
- Throughput up to 60 m<sup>3</sup>/h

# Heizoschnecke<sup>®</sup>

- 3.000 mm wide filling trough
- includes protective screen over trough
- trough and blower not handed
- optional automatic load control  
(increased output up to 60 m<sup>3</sup>/h)
- Electric auger motor  
output 4,0 kW at 74 rpm.
- Auger diameter 200 or 250 mm
